

# Antistatické soudky

Pouze do vyprodání zásob

## TECHNICAL DATA

(tolerances and alterations to the given specifications may arise)

Reference	7006	7026	6944
Capacities (litres)	6	26	75
Dimensions (mm)			
Ø keg	198	316	410
Ø opening	136	204	354
Height	265	406	685
Printing height	70	130	200
Printing width	300	330	330
Type			
Material	HDPE	HDPE	HDPE
Standard colour keg	black	black	black
Standard colour lid	black	black	black
Handgrips	no	no	yes
Packaging			
Pallet 1000 x 1200 mm	240	55	24

### General information

Surface resistivity  $\leq 10^6$  Ohm/□

100% quality control (see table)

All kegs are air and watertight

All kegs can be made tamper evident with application of Compact seal (7800)

Maximum filling temperature is 80°C

Contents must have cooled to 30°C before kegs can be closed and stacked
